

OCELOT

SEA SALT CHOCOLATE NOW AVAILABLE

Now available... Sea Salt choc

We are delighted to say that Ocelot's much loved Sea Salt chocolate is now available for sale in Europe! This bar combines smooth dark 70% Virunga chocolate with a salty sweet kick of Scottish sea salt which is hand-harvested using an exceptional method – a 10 metre high tower of blackthorn branches built on the windswept western coast of Scotland.

Pure Scottish Sea Salt

'Our ways are patient, gentle and sustainable: Scottish West Coast sea water is slowly trickled through the country's only graduation thorn tower whilst being evaporated by the exhilarating West Coast winds.'

This is the salt that gives our Sea Salt Chocolate it's mouth-dancing, flavour enhancing, wild Atlantic zing!

The story of Blackthorn Salt is a staggering achievement: the creation of the world's only graduation tower – an ancient technique creating a giant tower of thorns to capture the wind and sun to create a mineral-rich sea salt.

It is a beautiful testament to the ingenuity and tenacity of humans: using ancient wisdom to harness the forces of nature.
